

## Pupil Premium Strategy Report 2015-2016

### Pupil Premium

The Pupil Premium is funding provided to schools which is additional to main school funding. It is allocated according to the number of pupils on-roll who have been eligible for free school meals (FSM) within the past 6 years, a smaller amount allocated according to the number of children of service families, and an allocation for each pupil who has been 'Looked After' (in care) for 6 months or more.

It is for schools to decide how the Pupil Premium is spent, since they are best placed to assess what additional provision should be made for the individual pupils within their responsibility. However, schools are to be held accountable for how they have used the additional funding to support pupils from low-income families. See below for information regarding how the pupils premium was spent in the last financial year and the impact of this funding.
